

INSPECTION REQUIREMENTS IN AREAS WITH NO LOCAL INSPECTION AUTHORITY

Dear Member:

The Energy Cooperative (TEC) requires you to have an electrical inspection prior to energizing your service. You must provide TEC with documented verification of the inspection. In areas where there is a local inspection authority (AHJ), such as within a municipality or county with an inspecting body, you will need to contact the local inspection authority and comply with their permitting and inspection requirements.

In areas where there is **no local inspection authority**, TEC requires you to verify that the installation of your meter base and member owned equipment has been inspected by an electrician. For a manufactured home, the inspection must be performed by an electrical inspector certified by the Ohio Department of Commerce: Division of Industrial Compliance/Building Code Compliance (DIC). For a list of DIC certified electrical inspectors in your area, please contact New Member Services at 740-348-1275.

TEC members need to contact an electrician or a DIC certified inspector (for a manufactured home) and have them inspect their meter base and member owned equipment. After the inspection has been completed, the electrician or the DIC certified electrical inspector must fill out the bottom portion of this document.

Return this completed document to the address or email address below in order to connect your service:

The Energy Cooperative, P.O. Box 455, Utica, OH 43080

Or you may email to: neuelectric@theenergycoop.com

For questions, call: 740-348-1275

The service installation has been inspected for:

TEC Service Order #: _____

Member Name

Address

City, State, Zip

Not a Manufactured Home
(To be completed by electrician)

I am an electrician and on _____ (date) I inspected the meter base and member-owned equipment at the above location. Based on my experience and training as an electrician, I find the meter base and member-owned equipment at this service location approved for connection and ready to be energized.

Signature _____
